Unlocking transformative change for a well-adapted UK

1: Assess barriers to awareness and engagement with adaptation by diverse publics

2: Explore the efficacy of Welsh and Scottish approaches to wellbeing and future generations for adaptation

3: Increase understanding of system complexity

4: Identify and address aspects of policy, legislation and regulation that hold back the adaptation vision

5: Enhance the accessibility and understanding of climate model results for decision-makers

Community members using the Connswater Community Greenway

Understanding and translating 'what works' on adaptation

Pillar 1: Building skills and partnerships
Meaningful engagement to strengthen knowledge and capacity across the UK

Pillar 2: Data and knowledge generation
Generating knowledge that advances adaptation action: local risk maps, knowledge sprints and Hub-led research
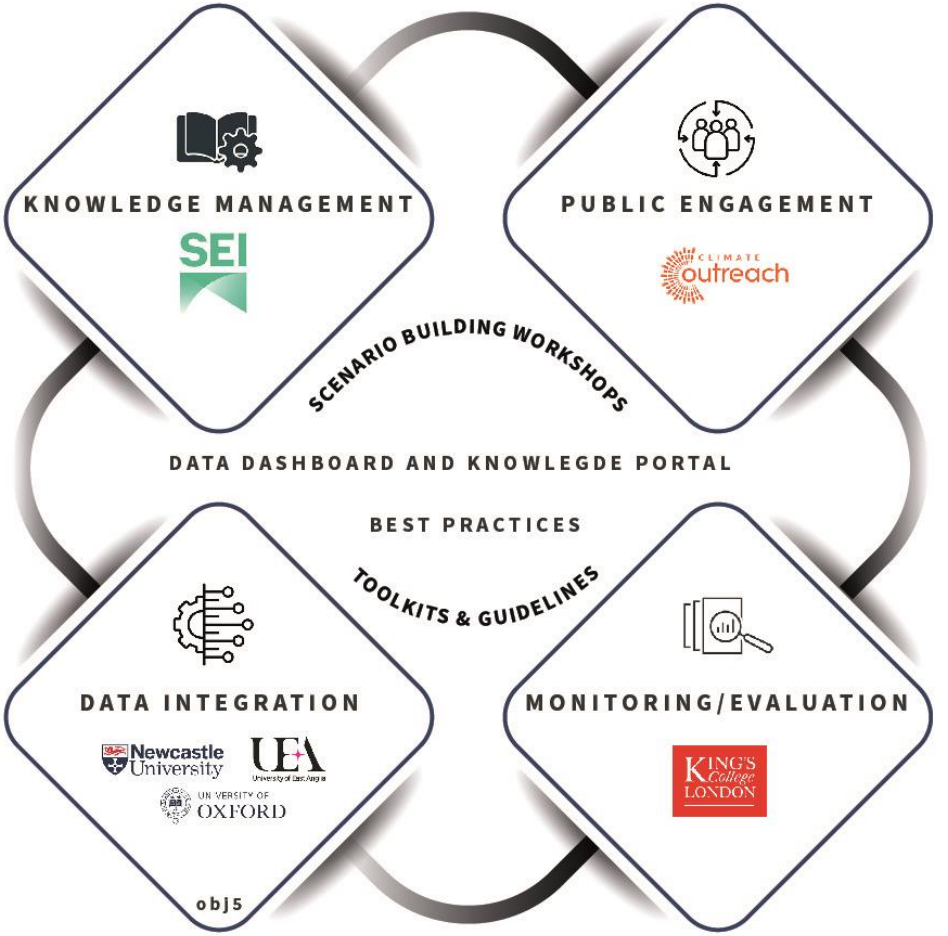

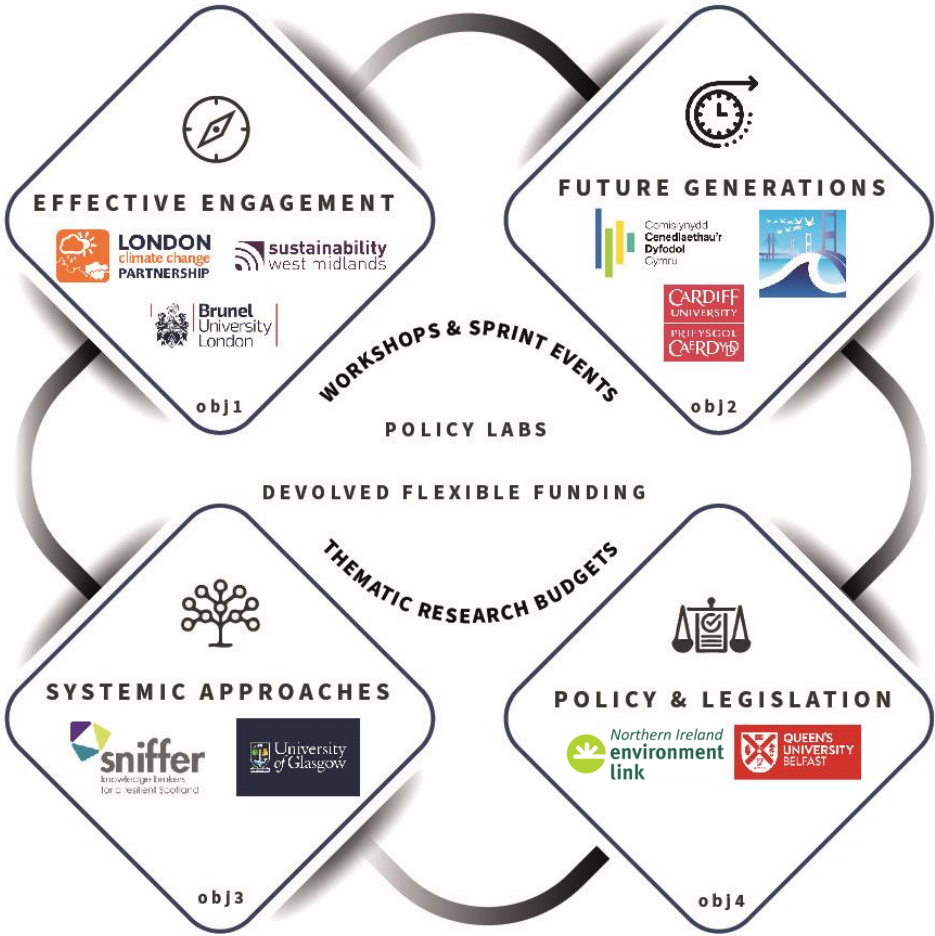

Pillar 3: Linking knowledge, policy and practice
Building connections between policy and practice through a Policy Response Unit, Policy Labs, and a Knowledge Portal.
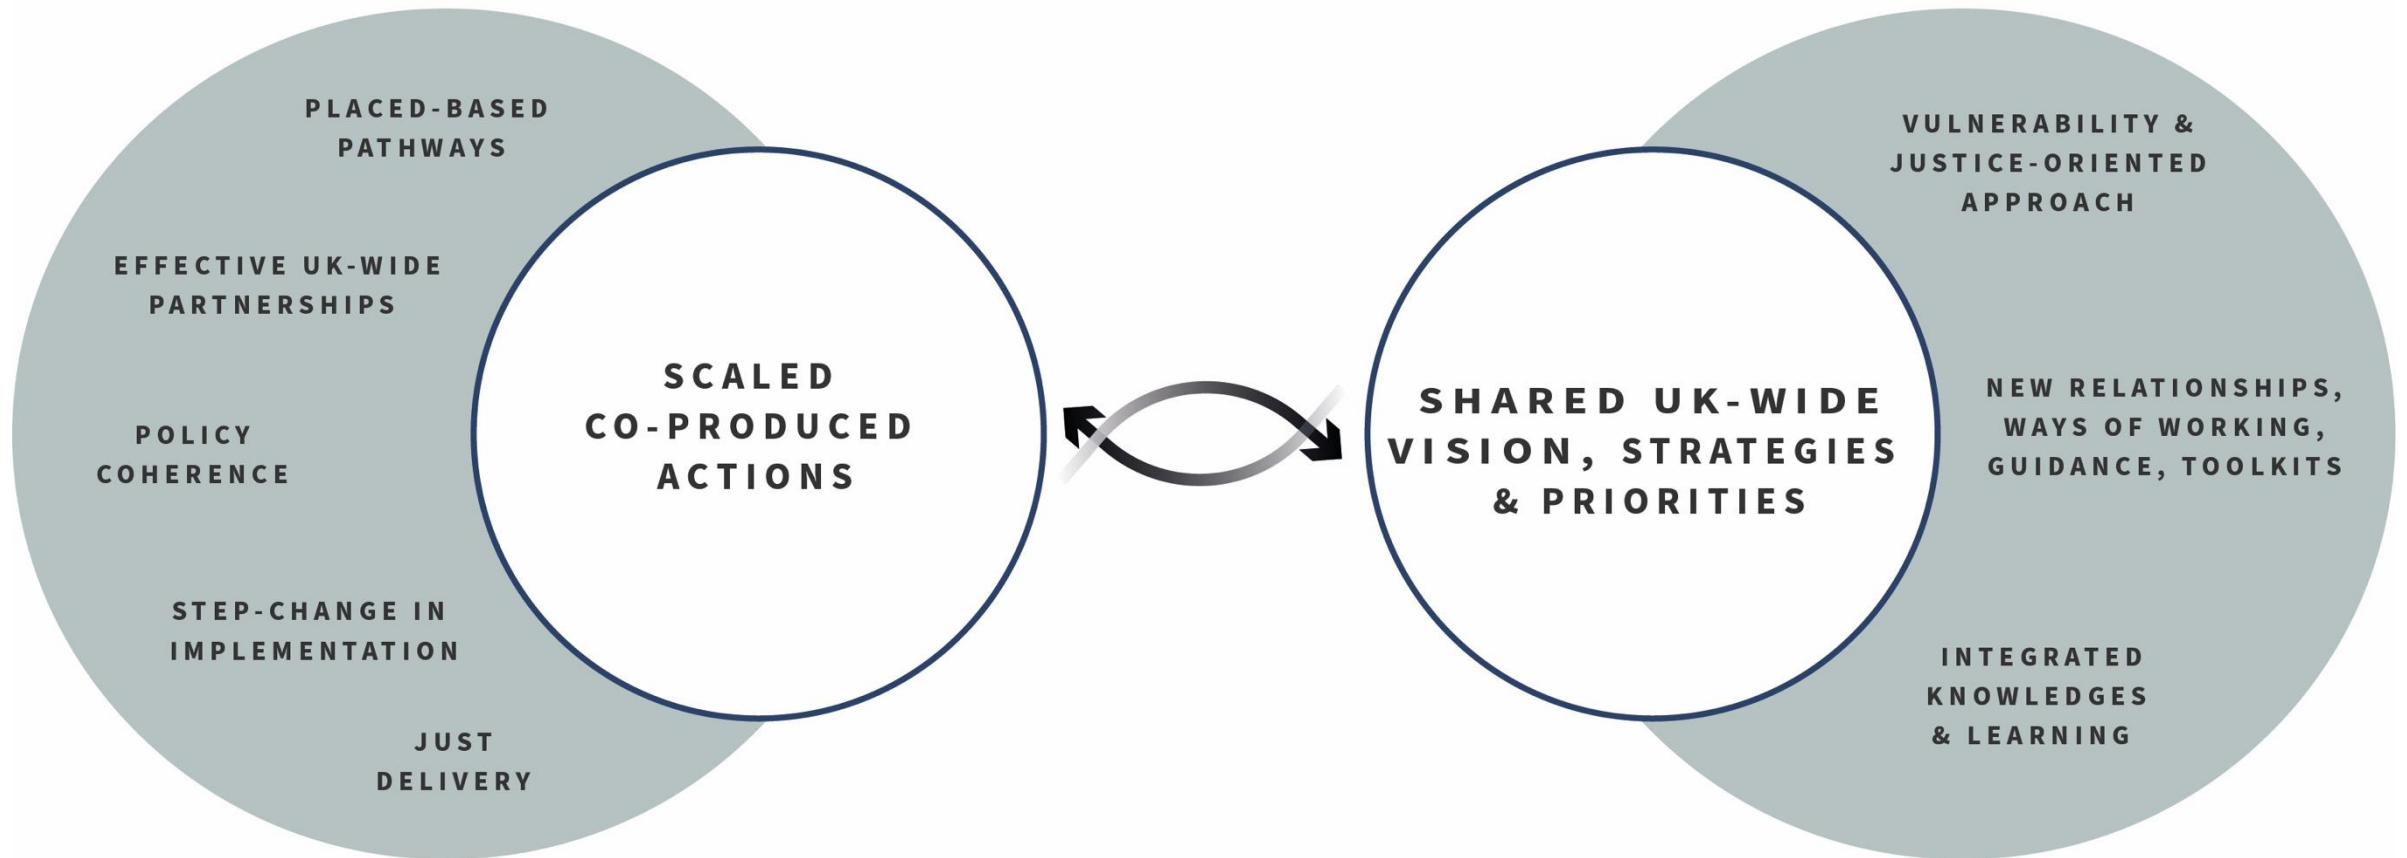

WP4: Innovating through targeted funding
Trialling transformative adaptation projects through an open call flexible fund

Building a UK-wide adaptation community

Creating the enabling conditions for transformative adaptation in the UK

Call for Evidence

#	Research Question	Inclusion Criteria	Exclusion Criteria

1	**What are the levers of change for adaptation in the UK and its regions (including any assessments of barriers or opportunities)?** *Consider following prompts when scanning for relevant sources:*
	 1. UK-wide:
	    a) Existing policy assessments and progress assessments (including role of local government)
	    b) 'Sectoral' (aligning to CCC 13 Adaptation Monitoring Maps)
	 2. Other regionally specific levers, barriers or opportunities:
	    a) Legislative, structural or regulatory
	    b) Geographic
	    c) Social
	    d) Financial
	    e) Data and Evidence
		1. **Expectation** - Best existing information at a UK, regional and sectoral level
		 2. **Location** – United Kingdom, regional reports from England, Scotland, Wales & NI, some local-level information if lessons are relevant for other areas or in areas of significant risk
		 3. **Publicly available**
		 4. **Peer-reviewed or grey literature**, from relevant transboundary research projects and statutory and professional bodies. Prioritising synthesis over individual studies.
			1. Sources not in English
			
			 2. Sources from outside the UK
			
			 3. Sources before 2020

2	**What guidance and examples are available on the topic of 'Transformational Adaptation' which can help us define it for use through the Hub?** *Consider following prompts when scanning for relevant sources:* 1. Guidance or synthesis on the idea of Transformational Adaptation from UK and around the world 2. Examples of transformational adaptation from UK and around the world 3. Examples of transformational change/social movements more broadly	1. **Expectation** - Best existing information on Transformational Adaptation. 2. **Location** – Priority for United Kingdom information and regional/local information from England, Scotland, Wales & NI, but international information is acceptable. Local-level information is permitted if lessons are relevant for other areas. 3. **Publicly available** 4. **Peer-reviewed or grey literature**	1. Sources not in English 2. Sources before 2014
