Where are you joining from?

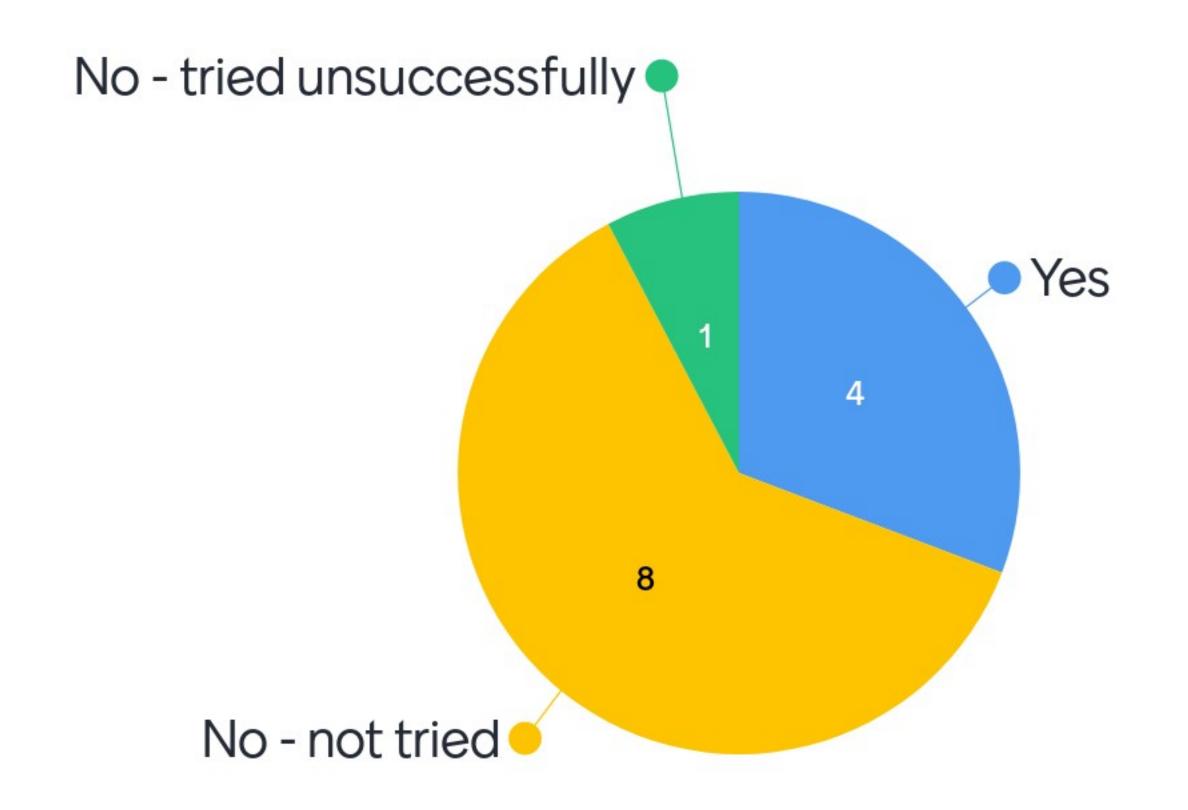

Have you received funding for adaptation work?

What are your main barriers to securing funding?

Monetising natural capital assets

making time - not being a charity

Unfamiliar territory for us at present

Lack of knowledge to find them

Funders & grants often looking for 'shovel ready' projects

Lack of internal resource to develop projects

Needing more buy-in from Council senior officers

Funding tends to be prioritised towards mitigation as opposed to adaptation

Don't know where to apply for it

What are your main barriers to securing funding?

Mitigation attracts more funding

Most funding for mitigation

Drive to net zero makes adaptation a harder sell

Communicating - internal and partnership working

Finding them

Grants Investment

Funding conflicts can be an issue Capacity to develop projects Return on investment - easier with mitigation work

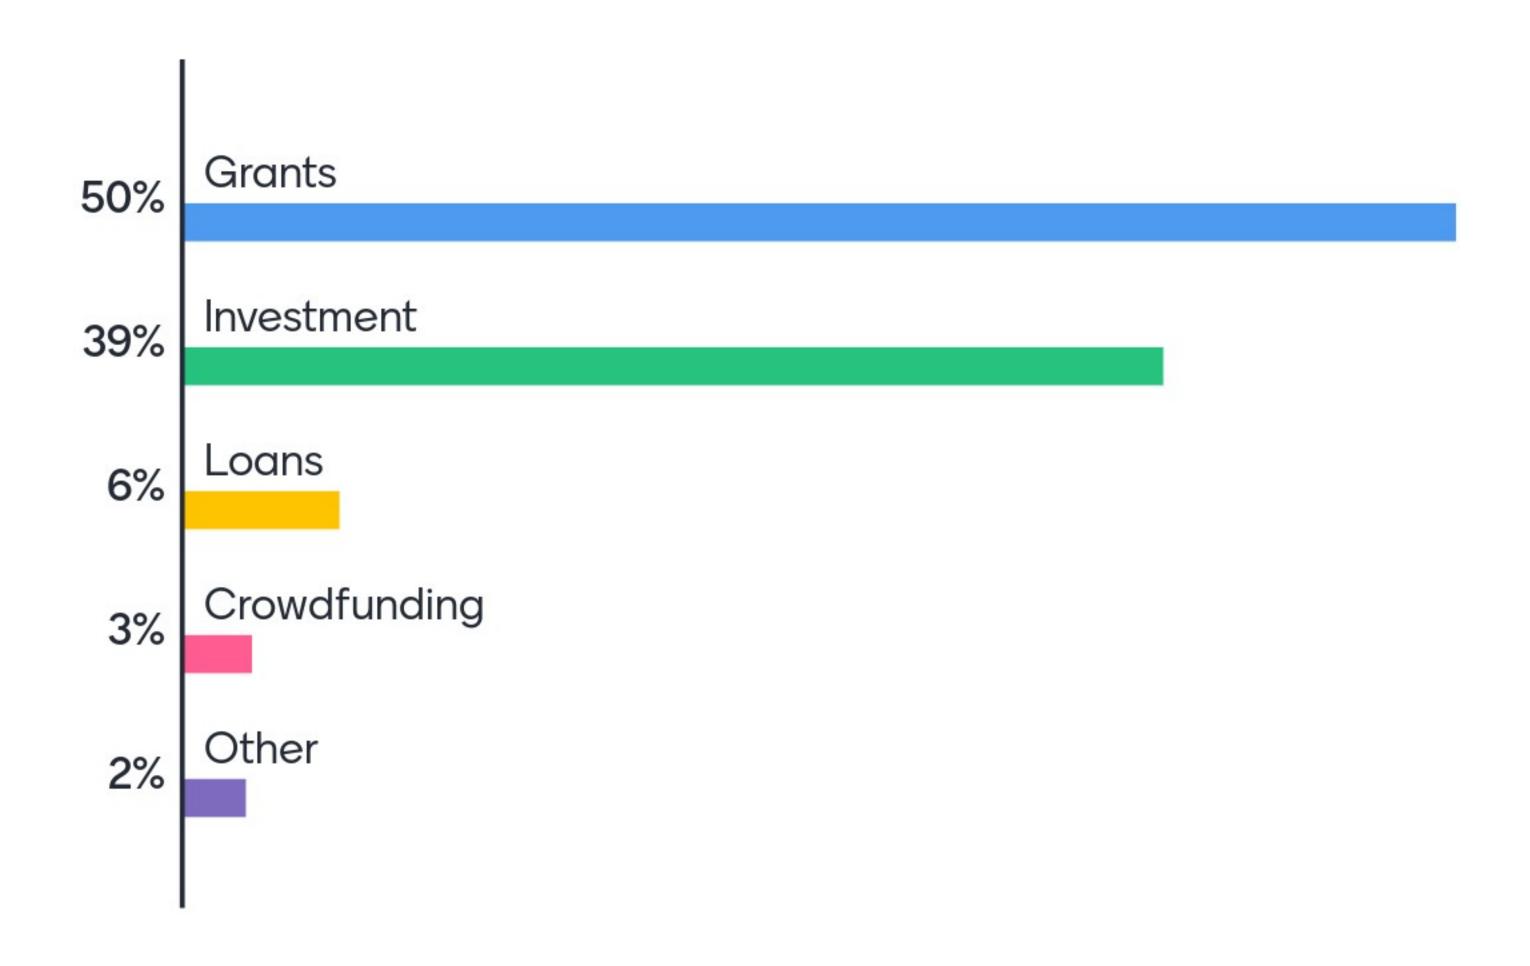

Trust between coordinating organisations

Data validation

What kind of funding would you be interested in?

What scales of funding would you be interested in?
