# Weather Extremes

**Professor Hayley Fowler**

Professor of Climate Change  
Impacts at Newcastle University

**Hayley Fowler** is one of the UK's leading experts on extreme rainfall and flooding. Her research advances understanding of how precipitation extremes are changing in a warming world and develops improved projections to guide climate adaptation.

 Share

# Tipping Points

## Professor Tim Lenton

Founding Director of the Global Systems  
Institute at the University of Exeter

**Tim Lenton** is Chair in Climate Change and Earth System Science at the University of Exeter and Director of its Global Systems Institute. He is a pioneer in identifying climate tipping points – the thresholds that can trigger irreversible shifts in the Earth's systems. He is also an expert in positive tipping dynamics, and his award-winning research has shaped understanding of the 1.5 °C target and pathways to sustainability.

# Food Security

## Professor Paul Behrens

British Academy Global Professor and  
expert in food system transformations

**Paul Behrens** is a renowned sustainability scientist and British Academy Global Professor at the Oxford Martin School, University of Oxford, where he leads research on the intersection of climate, energy, and food systems

# Health

## Professor Hugh Montgomery

Director of the Centre for Human  
Health at University College London

**Hugh Montgomery** is a Professor of Intensive Care Medicine at UCL and co-leads the Lancet Countdown on Health and Climate Change. A clinician, researcher, author, and environmental advocate, he founded UCL's MSc in Climate & Health and health-sector non-profit Real Zero.

# National Security

## Lt General Richard Nugee CB CVO CBE

Senior British Army Officer (retired)

**Lieutenant General Richard Nugee CB CVO CBE** is a former senior British Army officer and leading voice on climate and national security. His 35-year military career included operational tours in Northern Ireland, the Balkans, Iraq and Afghanistan, where he served as Chief of Staff to NATO's ISAF Joint Command. He later became Chief of Defence People and was awarded the US Legion of Merit.

# Economics

## Angela Francis

### Policy expert in green economics

**Angela Francis** began her career as an energy industry accountant before becoming an economist focused on low-carbon growth. She has worked across the UK, Europe, and the Caribbean – where she was Regional Economist and Climate Attaché for the Foreign and Commonwealth Office in the Caribbean.

# Energy Transition

**Tessa Khan**

Energy transition expert

**Tessa Khan** is a lawyer and campaigner and the founder and Executive Director of Uplift, an organisation that works towards a just transition away from oil and gas in the UK. Before founding Uplift, she was co-founder and Co-Director of the Climate Litigation Network, which supports strategic litigation around the world.

**A PLASTIC PLANET**

# NEB MISSION

To help create a societal tipping point towards genuine emergency action on the climate and nature crisis.

## Phase 1

**National Emergency Briefing**  
27th Nov 2025

- High-level briefing to 1,200 MPs and other influential people
- All aspects of the interconnected climate & nature crisis
- How it affects British life

**Constituents share content with MPs**

- Ask MP to back the call for a televised emergency briefing

## Phase 2

**Film watched together in communities across UK**

- Keep building MP support for a televised briefing
- Attended by councils and other institutions, organisations and public figures -> join the call

**Government briefs the nation**

- Genie out of the bottle
- Break out of business-as-usual
- Launches a bold, ambitious national project

# THE PEOPLE'S EMERGENCY BRIEFING

# HOST A SCREENING

# Become a NEB Connector and help spread the People's Emergency Briefing film.

The National Emergency Briefing aims to ensure the evidence presented in Westminster is heard across the country. Given the urgency, we are asking for help in securing screenings. If you can potentially encourage multiple screenings via your networks and connections, we would really appreciate your help.

## What happened in London

In November 2025, leading experts briefed political and civic leaders on the national threats posed by the climate and nature crisis. The film now in production distils that evidence into a documentary film designed for wider public engagement.

## Who we are looking for

**Can you help connect us with venues to host the NEB Film?**

Registering your interest in promoting screenings via existing organisations, venues or networks.
