What kind of organisation are you representing?

- Local authority
- Business
- Research organisation
- Third sector
- Other
- Unknown

Is there anything else relevant that you do or do not include in your Scope 3 accounting?

Export PV?

School transport; water; well-to-tank

Commuting (using average staff distance to HQ vs a expectation of remote working a % of time over the week)

travel between term-time and permanent address for HE organisations - Univerity of Exeter do not include

Travel commuting scope - day to day versus travelling periodically/termly from another home?

Water use

We're making big moves to start incorporating a lot of what was including prior - but at the beginning. This is a part of why here today! :)

Embodied carbon in products we buy / sell on site

Green electricity supply....seems like a big opportunity for inconsistency and CCC seem to imply that mainly it is not additional (so should it be a valid "offset"?)

Is there anything else relevant that you do or do not include in your Scope 3 accounting?

Water usage and well-to-tank

Livestock emissions

Energy related activities (Well to tank etc)

Question about is it our emissions or community wide emissions

well to tank and transmission, water,

Demolition and Construction processes (linked to Capital assets, but perhaps missed out of accounting) . Jason Ball.

School travel,water,highways materilas,commuting

Student Halls (Uni of Plymouth do no include yet)

Having calculated water supply many times, it has always come out as negligible in emissions

Is there anything else relevant that you do or do not include in your Scope 3 accounting?

Pensions, district waste & recycling, partnerships, subsidiaries

Fleet vehicles

Tree planting and other carbon sequestration

Soil and habitats. Management and damage. No monitoring by many landowners inc local authorities. Jason Ball.

Just starting to look at ICT

No

In Local Authorities, dealing with arms length companies, owned companies etc

Wholly owned companies

What impacts whether you include a category or not?

What kind of organisation are you representing?
